NOT RESPONSIBLE.

TO THE EDITOR OF THE TIMES:

SIR,—As many of my friends in Nanaimo have the impression that I am responsible for an unfavorable reference in the *Colonist* to the manner in which the dead bodies were treated after being brought out of the mine, permit me through your valuable paper to disclaim any responsibility or connection whatever with the report in question.

COWAN, SHAW & Co. have to hand two carloads of buggies made and finished expressly for the British Columbia market. COWAN, SHAW & Co., Wharf st.

NANAIMO'S CALAMITY.

More Bodies Recovered Yesterday—Exploring Parties.

A Fire Engine Disabled—Burial Ceremonies—No Pipa Now.

The fire in the No. 2 shaft continues to burn and the engines are still pumping water on the debris. The fire has considerable hold and in the south return it is not yet out; nor has the fire in the engine gallery been conquered as yet. On Friday night the V. C. Co. had to attach the water tanks to the cages to haul up the water as there was a great accumulation of water then at the bottom of the No 1.

EXPLORING PARTIES

have been down as far as possible in the workings, but so far no bodies have been sent up. E. G. Prior came up at 11 a. m., and a large party of men under the leadership of Messrs. Scott and Little of the Wellington collieries, with a large force of men from the different mines of the district, for the purpose of, if possible, securing more of the victims from below. There is not the least hope of them reaching some of the men for a long time to come. Those men who were at work in the lower levels will have to lie there for a long time as the probabilities are that they are already below the level of the accumulated drainage of the whole mine. The pumps were known to be under water at the time of the explosion, and the immense quantity of water that has been thrown upon the fire since last Tuesday night, with the usual flow from the workings, must in all human probability have raised the water high up in the lower levels of the mine. Before those unfortunate miners can be got at, it will be necessary to pump out that accumulation of water. There is also some big cave-ins to be removed prior to any machinery being put in position. To attain such a result, it is known that while those shafts were being sunk the sinkers went through some small veins of coal and it is almost certain that the vast volume of fire that came up No. 2 shaft has set those small veins on fire. Should such be the case it will be highly necessary to ascertain in what condition those veins are before any proper ventilation of the present mine can safely be progressed with. As these fires, apart from the fire at the bottom, are highly dangerous, should gas, or fire damp exist in the mine now being explored.

THE NANAIMO FIRE BRIGADE

have worked heroically since the explosion. Members have been almost constantly on the scene and the Manual engine, and its contingent the Merryweather, have singly and unitedly thrown three or four streams of water constantly upon the fire. The sailors of the fleet of vessels now lying in our harbor have been working relays of men on the Manual engine, whilst the Nanaimo brigade have manned the steamer, which was a most arduous duty. During the week torrents of rain have fallen, and the position of the engine upon the beach compelled the company's volunteers to stand by the steamer night and day, to follow the flow of the tide in and out, so as to retain the suction of the engine in the tide-water, sometimes half way up to their middle in the salt water. The swell of this morning was caused by the high gale and compelled them to move the suction hose every few minutes and clean off the kelp and sea-weed which would collect around the suction cap. The drenching torrents of rain made their position most uneviable.

THE BURIAL CEREMONY.

The funeral of a number of the victims was commenced at an early hour this morning and the last sad rites consummated. It was near six o'clock before the burials were concluded. Eleven coffins have been lowered at one time. A large number of interments are expected to be held to-morrow. To-day was one of the most miserable days ever seen; rain, high winds and cold, inclement weather, more like March than May. The distress of the bereaved is heartrending. Wives and children mourning for the loss of the bread winners taken from them. Some of the men's wives have been so afflicted with the sad loss that fears are entertained that their mental faculties are almost past redemption. Small children crying, and telling passers bye that they have

NO PAPA NOW.

Mothers fondling the clothing and little mementoes of their lost boys. One young woman is not expected to live; the shock has so shaken her that convulsion after convulsion has all but blighted her bright young life. It is believed that her intended is amongst the victims of this fearful catastrophe.

Several of the miners had changed shift with their friends on that fatal afternoon and are numbered amongst the dead.

The damage done on the surface to the casual observer is but very little. The remnant of the fan house which must have cost about $25,000; the charred timbers of the bed frame still remain, amongst which lie the twisted machinery of the monster fan and the engine used for driving it. The small hoisting engine used for raising the rock from No. 2 shaft, which was being sunk to the lower seam at the time of the explosion was, by the most strenous efforts of the fire company, saved with very little damage, although it was encircled in the raving flames from No. 2 shaft for several hours. The wreck is really below, or the whole mine underground is literally torn to pieces. The approximate loss to the district is certainly not less than $400,000 to $500,000, and happening just as it has, during one of Nanaimo's busy times, for the coal demand has not been so good for the last two years as at present. Such delay has been occasioned by this terrible calamity that its effects cannot be approximately estimated.

OUT OF ORDER.

Since the above was written the steam fire engine has broken her pump, totally disabling her for further duty, until repaired, if such is possible. This will undoubtly delay the extinguishing of the flames below, as the little engine has been pumping water down the big shaft for exactly 48 consecutive hours, without any stoppages except of a few minutes while being moved up and down the beach as the tide ebbed and flowed. This break is a most serious affair, and like most accidents could not have happened at a more awkward time. The boys in red looked as though they had lost a faithful and well tried friend, and the Nanaimo fire brigade are extremely proud of their two noble engines. It is to be hoped that the V. C. Co.'s machinists will be successful in making the temporary repair of the little Merryweather engine.

NO MORE BODIES

have been recovered to-day and their recovery is most problematical from the present appearances. Yet those noble men who have risked their own lives in their heroic efforts to save lives if possible, deserve their country's praise. The destitution caused by this accident is unparalleled on the Pacific coast. When it is really known how poorly provided for such distress as some of our bereaved are there is no doubt that our neighboring cities will most nobely respond with brotherly charity and sympathy. It was heartrending to hear wives and mothers bewailing the loss of those dear ones, and many a tear stood in the eyes of tall strong men when told that all those wives had in this wide, wide world was down in that burning mine.

YOUNG WIVES

of but a few weeks could be seen wringing their hands, and looking with most abject despair at the vast column of black smoke rolling upwards towards the sunny clouds as if to assist them in casting an emblem of mourning over the whole country. May God grant that such a fearful calamity may never again darken the fair escutcheon of British Columbia's history.

THIRTY-FIVE BODIES RECOVERED.

SUNDAY, 2:30 p. m.—Early this morning the news was spread that the No. 1 level exploring party had discovered all the bodies in that level and that they would be brought up as expeditiously as possible. The explorers found the door closed in the level and barricaded, and had to burst it open, and there they found the bodies of twenty-five whitemen and ten Chinamen. On the door was written in chalk the following:

Five hours after the explosion. And again thirteen hours of misery. JOHN STEVENS.

Poor little Johnny! He was quite a favorite with all who knew him for his good nature and kind disposition. The work of the explorers was a most arduous one, as along the No. 1 level numerous cave-ins had occurred. Those men entombed in there had striven hard to protect themselves, but the fatal afterdamp had at last crept in upon them.

Your correspondent saw the bodies brought up the shaft and visited

THE MORGUE AND HOSPITAL.

There the poor fellows lay side by side in rows; not a man but what could be readily recognized by all who knew them. A large party visited the morgue from Victoria and the sight is such as will not readily be forgotten by those who were present. To-day is a day of sadness, and a gloom is upon our little town that long years will not erase. The following is a list of the dead brought up to-day: J Thomas, E Wilkins, J Milton, E Benton, J C Fallon, A Ellis, J Richards, Wm Bone, E Johns, J Thompson, J Bramley, jr, J Campbell, T Martin, J Wilson, J J Smith, D Morgan, D Ellis, G Bowden, more familiarly known in B. C. as Uncle George; G Simmons, J McGuffie, J Stevens, B Popplewell, W Gilbert, R Buffington, J Malcolm. No one can imagine how many broken-hearted wives and mothers there are, whose loved ones are gone forever from our midst, and who now are mourning amongst us for the irreparable loss sustained while in distant lands; many a loved one has had a dark dismal cloud of sorrow cast upon them for those loved laying dead in a far-off strange land. Yet let them know that kind friends have performed the last sad duties to their dead, with tear-stained eyes and choking hearts, and in many a case, where youth's young dream has been blighted ere they laid the remains in the tomb have imprinted a loving kiss upon their noble, manly brow, for the sake of a mother or the loved ones at home. It may help to cheer those at a distance when it is known that all that human aid could conceive of was done, and will still be done, by the people of Nanaimo.

FOR REPAIRS.

The V. C. Co.'s steam pump is connected with the hose and will commence to pump water this afternoon upon the fire in No. 2 shaft. The N. F. D. engine will at once be put in the machine shop of the V. C. Co. for repairs.

NANAIMO RELIEF.

To the Ladies of Victoria.

A very large number of the women of Nanaimo have been left totally destitute, by the late terrible accident, and their position appeals with special force to their sisters everywhere. By organizing yourselves into committees, and canvassing your respective circles, you can render great service to the widows and orphans of Nanaimo. Collection books can be procured at the City Hall. Yours,

JAMES FELL, Mayor

British Columbia's Exports.

The Tacoma *Ledger* publishes a complete table of the exports of coal and lumber from Puget Sound for the month of April, which it is claimed aggregates the largest tonnage in coal and shipment of lumber for any one month on record. In March, the exports of lumber amounted to 27,249,043 feet, and 44,389 tons of coal. The April shipments were 28,552,735 feet of lumber and 44,595 tons of coal. The value of the coal amounts to $162,578, and the lumber to $397,445, and merchandise $95,000, making a total for the month of $655,062.

From British Columbia to coastwise and foreign ports, the following quantities of lumber were taken coastwise and to foreign ports in sailing vessels. They were principally from Burrard Inlet:

VESSELS.	FEET.
Bark Alice Muir	860,000
Bark Don Nicholas	617,000
Bark Dilbhar	961,000
Bark Columbus	640,000
Ship Wm A Campbell	1,500,000
Bark St Lawrence	800,000
Ship Shannon	962,000
Total feet lumber	5,950,000

The coal shipments from Departure Bay and Nanaimo for the month amounted to 25,218 tons and was carried in the following vessels:

VESSELS.	TONS.
Ship Glory of the Seas	3,287
Ship John A Briggs	3,000
Ship Carrolton	2,275
Ship Sintram	2,275
Ship John McDonald	4,000
Ship Tropic	3,200
Ship Omega King	2,800
Ship Harry Morse	2,084
Bark Don Carlos	1,022
Total tons coal	25,218

To carry the above coal and lumber 23,016 tons were engaged.

Heavy Freight.

A private dispatch from San Francisco says the Chester was unable to take all the freight offered, and another steamer, probably the Walla Walla, was to have taken it and sailed to-day for Port Moody.

HELP THE DISTRESSED.

The "Times" Opens a List.

In order to afford many of our citizens and the readers of THE TIMES an opportunity to extend relief to the many widows and orphans which the sad disaster at Nanaimo last Tuesday has left unprovided for, and their wants being really urgent, it has been suggested by several of our citizens that THE TIMES should open a list for their relief. Subscriptions then will be received at this office and deposited in the bank to the credit of Mayor Gibson to be applied as the Relief Committee may direct. Sums received as well as the names will be duly acknowledged through our columns from day to day.

INTERIOR NEWS.

Items of Interest from Kamloops, Spallumcheen, &c., &c.

[From the Sentinel.]

Valuable umbrellas are safe at Kamloops; nobody ever thinks of borrowing one.

Mrs. Cochrane, a sister of Lord Rosebery, is to reside at Calgary; and is to have a large residence building erected there.

Tatnal Lodge, No. 9, I. O. O. F., Kamloops, will be installed on Monday, May 16th. Members of other lodges cordially invited.

It is probable that a Jockey Club will be shortly organized at Kamloops.

Qu'Appelle, and other small places eastward on the C. P. R., will celebrate the Queen's jubilee; but, as yet, no action has been taken by the people of Kamloops in this matter.

The climate was distinctly visible at Kamloops last Monday. It came from the southeast; was moving rapidly, and was of a dirty brown color. It was not made welcome.

We learn that a brick kiln has been started on the South Thompson, about 30 miles above Kamloops.

We regret to have to chronicle the death of Mrs. A. G. Pemberton, who has been ailing for some time, but who at last died suddenly on the 4th inst. Mrs. Pemberton was an old resident of this district, and was highly respected throughout the locality; and Mr. Pemberton has the sympathy of his many friends and acquaintances in his sad bereavement.

About $800 was subscribed on Friday to form an agricultural society at Kamloops—J. B. Greaves heading the list with $250.

The Masonic brethren of Kamloops presented to the Rev. D. H. Horlock a valuable *souvenir* on Wednesday last, on the eve of his departure for England; and the ladies of Kamloops also presented to Mrs. Horlock a valuable memento of their esteem upon that lady's departure.

The Dominion House, Kamloops, has changed hands—Mrs. Nelson having bought out Mr. Ed. Cannel. Mrs. N. has been long and favorably known as a hostess at Spence's Bridge.

The Rev. D. H. W. Horlock, lately officiating pastor of the Episcopal Church, Kamloops, with his very estimable lady, left for England last Thursday morning.

The following votes were polled: Spallumcheen, 89; Priest Valley, 39; Okanagan Mission, 30; Head of Lake, 10. It is claimed that Roadley secured only three votes out of the above.

The Hydraulic Mining Co. have commenced washing at Mission Creek.

The Mill Co.'s building on the Spallumcheen is nearly completed. They are expecting their machinery in soon, and hope to be in running order in a very short time. The company's steamer, Red Star, has arrived. Its carrying capacity is now being tested, and also its towage power; although it appears altogether too small for towing, except light loads, and in calm weather.

Messrs. Lequime and Rabbitt and Mrs. Young and family, of Spallumcheen, have arrived back from the east.

Riotous Italians.

The Vancouver *News* says that on Saturday the ballast train went down the track to switch on a car that had been unloaded and on which a number of Italians were standing. The cars met with rather a rude shock, which caused a couple of the Italians to lose their equilibrium. On regaining their feet one of them drew a knife and rushed at the foreman, who was standing on the next car. One of the brakemen, who saw the danger and, as the Italian was passing him, sprang forward and grasped his uplifted arm just in time to prevent the blow being struck and quickly disarmed him. The other man had grabbed a shovel and was also about to attack the foreman, but he was also disarmed and sent back to the car. The Italians then held a council and after deliberating for some time struck work and sent a deputation into the city to interview Mr. Armstrong and inform him that they would not return to work until the foreman was discharged. Mr. Armstrong refused to comply with their request, and it is not yet known whether they will go back to work or not, but it is probable they will.

The banks of the United Kingdom are owned by 98,000 shareholders, the average capital to each shareholder being £900 in Scotland, £795 in England, £720 in Ireland.

TO-DAY'S DESPATCHES.

A SPECIAL TRIBUNAL.

LONDON, May 9.—The Earl of Carnarvon writes to the *Times* suggesting that it is intolerable to allow the Dillon *Times* question to rest in its present state. A special tribunal is to be created outside of parliament invested with full powers to call and examine witnesses and to whose decision the matter will be left. While expressing confidence in the impartiality of the proposed tribunal, the *Times* says it is doubtful whether the Parnellites would consent to submit their cases to such a tribunal. But why, it asks the necessity for amateur tribunals? Is not the law of the lands good enough for Parnell and Dillon.

Samuel Cousines, the engraver is dead.

FORMALLY OPENED.

The American exhibition was formally opened to-day. The weather is clear and sunny. About 7,000 persons attended. The bursting of a boiler during the morning prevented the starting of the machinery. Otherwise the programme of the opening ceremony was carried out. Hundreds of visitors ignored the ceremony of the opening of the regular exhibition, and rushed to the grounds where the Wild West show performed.

UNWARRANTED AND ILLEGAL.

DUBLIN, May 9.—In the case of Dillon against the police, Messrs. O'Brien and Davis, for assault and illegal seizure of money and papers at Loughrea, in the Court of Queen's Bench it has been adjudged that the conduct of the police was lawful. It will be remembered that Dillon and other members of the league were closed in a room in that hotel at Loughrea, receiving and receipting for moneys paid them, as trustees by tenants, under the Plan of the Campaign. The police, without warning broke into the room and by force took from Dillon the money and papers he had in his possession at the time. He at once had the inspectors, who were responsible, arrested. The plaintiff taking the ground that he was not violating any law, and that the police was an assault, unwarrantable and illegal.

MARINE CASUALTY.

HAVRE, May 9.—It is now stated that reports of the loss of life among the emigrants on the French steamer La Champaigne were exaggerated. Less than a dozen emigrants were drowned. The steamer Le Bretagne, sailing Wednesday, will convey the passengers of the La Champaigne. The bark which the Le Bretagne collided with and sunk on Saturday night was the Norwegian bark Tellus. The Le Bretagne was not injured.

FROM VIENNA.

VIENNA, May 9.—Count Andrassy has had a conference with the Emperor asking permission to make public the *North German Gazette's* statements respecting an Austro-Russian agreement.

AN ORDER FOR 400,000 RIFLES.

VIENNA, May 9.—Herr Nordenfeldt is about to sign a contract with the Hungarian government for the establishment with a capital of 4,000,000 florins, an order for 400,000 rifles, to be delivered in two years, is guaranteed. The Emperor has sent $5,000 for the relief of the victims by the fires in Hungary.

THE RUSSIANS ADVANCING.

CALCUTTA, May 9.—It is rumored that Russians are collecting supplies at Chardjin, about 200 miles from the Afghan frontier, preparatory to an advance on Khaniah.

BOULANGER AND THE FRENCH ARMY.

PARIS, May 9.—Gen. Boulanger has declared for the bill for the experimental mobilization of the French army next October.

RUSSIAN DESPOTISM.

ST. PETERSBURG, May 9.—The Russian government has prohibited the sale of the drama composed by Count Tolsea for general circulation and entitled "The Powers of Darkness."

Gladstone at Home.

The New York *Sun's* London correspondent last week called on Mr. Gladstone, whom he found to be in excellent health and looking extremely well for his years. He cables to that journal that he found Parliamentary papers and heavy-looking books were scattered all about, and shortly after my arrival Mrs. Gladstone came in and added an armful more of books and papers to the collection through which her husband was traveling. Mr. Gladstone was preparing for a fight against the Coercion Bill in committee, and Mrs. Gladstone was at work helping him to dig out the solid facts which gave weight to his crushing speeches. It was an interesting sight and an inspiring one. A young lawyer and his wife laboring together could not have been more utterly engrossed and enthusiastic. Mr. Gladstone remarked, with a smile, that there would be a lot of talking done yet before the Coercion Bill could possibly be passed. As one in the fight, he did not care to predict the result, but he was glad to say to Americans how much their sympathy and support had done to encourage him. "The kindness and good feeling shown to me by the American people," said Mr. Gladstone, "will always be deeply impressed upon my mind and heart. My great regret is that I shall never have the pleasure of seeing them at home and speaking to them myself." Mr. Gladstone was asked why he could not go over to see us, and whether he had any idea of the reception which awaited him in America. "Ah, that," said he, "is just what I have been afraid of. A quiet journey I might stand, but such a welcome as American kindness has led me to expect is what my physicians, who rule me, would never allow. An old man 78 years old, whose strength is more than needed for his work at home, has scarcely a right to spend it in crossing the Atlantic."

Hotel Arrivals.

At the Driard: Frank Hanford and wife, Seattle; J D Allan, Toronto; S D French, R H Percival, Vancouver; J C Seigfreid, Alameda; W C Savage, Oakland; W McMichael, E H Hall, San Francisco.

At the Oriental: John Swan, A O Hastings, Montreal; J W Morden and wife, Hamilton; H J Welburn, Quamichan Lake.

The journeymen bakers of Montreal are asking an increase of wages, $12 for ordinary workingmen and $15 for foremen.

The North Wentworth License Commissioners have resolved to refuse a license in future to any license holder violating the License Act.

An iron box containing the board of a dead Pittsburg miner was found in the cellar of his late residence.

The annual meeting of the Railway Conductor's Order will be held in New Orleans on May 16.

PERSONALS.

Mr. Frank DuPree, of the San Francisco *Chronicle*, is at the Clarence.

Rev. D. M. Gordon and Mr. G. D. McVicar, arrived from Winnipeg last night.

Rev. J. Calvert and wife, of Toronto, are at the Clarence.

Miss M. J. Cartmell, Japan, arrived up on the Chester and registered at the Driard.

Mayor Fell visited Nanaimo yesterday and inspected the scene of the late accident. He says there cannot fail to be a great deal of suffering among widows and orphans of the deceased miners and earnestly recommends the charitably disposed to befriend the unfortunates.

Mr. E. G. Prior, M. P. P., has returned from Nanaimo.

Mr. Cowan, M. P. P., returned home to Cariboo yesterday morning.

Mr. John B. Mather, of Winnipeg, returned by the City of Chester from San Francisco. He intends to leave for the east *via* the C. P. R. to-morrow morning. He expresses himself as well satisfied with the trip.

Mr. Charles Bush, who is at present in the Royal Hospital suffering from a brain attack, is improving and hopes are now entertained of his speedy recovery.

Mr. Edward J. Abraham, manager for the famous Lewis Morrison Co., is in the city making arrangements for the opening of a season at the Victoria; particulars of which appear in another column.

Passengers by the North Pacific from the Sound: J Davis, J Payne, J Wikleson, W A King, F A Noble, A Cushing, J Mills, C W Howard, McConnell, E Loyd, W Brown, T Smith, W J Ennis wife, daughter and son, Phillerson and wife, P H Falk, Whitter, C Gray, Mrs Le Prince, Mrs Severes, E A Gorden, McAlister, Mrs Stevens, Miss Stevens, J Mulligan, Miss Linton, Underwood.

OUTSIDE AID.

What Our American Cousins are Doing for Nanaimo.

Seattle has moved most nobly in the good work of raising funds for the Nanaimo sufferers. Already the *Post-Intelligencer* fund amounts to $850. Among the prominent donors are the *Post-Intelligencer*, $100; Chas. Waters, John Leary, Dexter, Horton & Co., each $100; a number of fifties and smaller sums by other charitable people.

SAN FRANCISCO MOVING.

SAN FRANCISCO, May. 7.—Mayor Pond has issued an appeal to the people of San Francisco to assist the widows and orphans of the miners who lost their lives in the colliery disaster at Nanaimo, B. C., with all the donations possible.

Serious Accident.

During the storm on Saturday afternoon, Henry Lawrence, who lives on the Burnside Road, went to look at a tree that had been blown down about forty yards from the road. He had scarcely arrived at the spot when another tree was blown down and falling across his person pinned him to the earth. Fortunately, a lady saw his position, and procuring assistance, he was liberated after some difficulty. He was severely bruised about the hips and has since suffered the most extreme agony. It was at first feared that he had received fatal internal injuries, but Dr. Hall is hopeful that he will recover.

The Nanaimo Disaster.

The Nanaimo *Free Press* states that the loss of life in the recent terrible accident will reach 148, of which 56 were whites and 52 Chinese. Forty-six widows and 126 fatherless children are the consequences.

THE INQUEST.

Mr. D. M. Eberts, of the legal firm of Eberts & Taylor, left for Nanaimo this morning to watch the proceedings of the inquest on behalf of the government, at the inquest to be held to-morrow in that city in connection with the late explosion.

The Hospital Fund.

The Jubilee Hospital Committee met to-day at 11 a. m., at the rooms of the Board of Trade. The reports from the several canvassers showed a total collection of $15,084, with several still to be heard from. The committee will continue its labors until the full amount of $20,000 has been procured. The generous contributions of our citizens are highly creditable.

The Mexico Floated.

The steamer Mexico was floated yesterday, and afterwards towed to Nanaimo by the steamer Maude, where she was beached and will be temporarily repaired. Captain Bruce is certainly deserving of credit for the success which has attended his work. The cost to the underwriters will be much less than was at first anticipated.

Severely Censured.

A correspondent writing to the *Free Press* signing himself Nanaimoite severely censures the *Colonist* for its untrue statements in reference to the treatment given the wounded at the recent Nanaimo explosion, and that they were not properly cared for. The statement is characterized as a falsehood and wholly unwarranted.

Cowichan Wharf.

The severe gale of last Saturday played sad havoc in many places along the coast. We learn that the slip at the Cowichan wharf was washed away by the heavy sea which prevailed that day. The slip was built by the government. It was a great convenience to the settlers of that portion of the district. No doubt it will be rebuilt at an early date.

Effects of the Gale.

The heavy gale of Saturday knocked down a great many trees in the woods near the city. The roads in a few places were temporarily obstructed by the fallen timber. It is not improbable that a number of marine disasters may be reported.

Point Ellice Bridge.

Messrs. H. Prior and W. J. Muir were each fined $2.50 for driving partly across Point Ellice bridge at a pace faster than a walk, on a week ago last Sunday.

A Jubilee Picnic.

The Blue Ribbon Club will give a picnic at Agricultural Hall, Beacon Hill, on May 24th, the proceeds to be devoted to the Jubilee Hospital.

Advertising Rates.

TRANSIENT ADVERTISING—Per line, solid nonpareil: First insertion, 10 cents; each subsequent consecutive insertion 5 cents. Advertisements not inserted every day, 10 cents per line for each insertion. No advertisement in this classification inserted for less than 15 cents.

REGULAR COMMERCIAL ADVERTISING, or distinguished from everything of a transient character, that is to say, advertising referring to regular Mercantile and Manufacturing Business—published at the following rate per line space of solid nonpareil, the duration of publication to be specified at the time of ordering advertisement: More than two days and not more than one week, 20 cents. More than one week and not more than one fortnight, 30 cents. More than one fortnight and not more than one month, 40 cents. No advertisement under this classification inserted less than $1, and accepted only for every day insertion.

Notices inserted amongst City and Province News will be charged 25 cents per line for each insertion for less than one week; for a period not exceeding two weeks, 15 cents per line, and for one month $1.25.

Advertisements unaccompanied by specific instructions inserted until ordered out.

Advertisements discontinued before expiration of specified period will be charged the same as if continued for full time.

Where cuts are inserted they must be ALL METAL—not mounted on wood.

Advertising Rates for The Weekly Times:

THE WEEKLY TIMES enjoys the largest circulation in British Columbia, and is therefore an unrivaled advertising medium. Those who have tested the matter will cheerfully endorse this statement. A limited number of advertisements will be inserted at rates which can be ascertained on application at the office.

A special discount will be made to long term advertisers, on both daily and weekly editions.

When mailing money, letters should be registered to insure safety. Address,

Victoria, Monday, May 9, 1887

THE QUEEN'S JUBILEE.

The festivities in connection with Queen VICTORIA'S jubilee have already begun. To-day, Monday, she will reach Buckingham Palace from Windsor. On Saturday next she will pay London another visit for the purpose of opening the People's Jubilee Palace. Her Majesty will then return to Windsor. The following programme has been arranged for the festivities of the balance of the present month and those of June: The Queen comes back to Buckingham Palace for one night on Wednesday, the 18th, and is to leave Windsor for Balmoral on the evening of Friday, the 20th, intending to stay in Scotland till Wednesday, the 15th of June. There will be an immense number of presentations at the drawing rooms on the 10th and 18th, which will be the last of the season. It has been discovered that the jubilee services in Westminster Abbey must be ordered by the Queen in council, so a special meeting of the privy council is to be held next month, at which the ceremonial and order of service will be definitely settled. The Prince of Wales, the Archbishops of Canterbury and York, the Bishops of London and Lord SUDNEY will be specially summoned to attend this council, which will probably be held at Buckingham Palace. As the Queen enters the west door of the abbey the fanfare, which has been a feature at all the great court ceremonies since the reign of King CHARLES II, will be played by the royal trumpeters, who are to attend in their state uniforms. As Her Majesty passes slowly up the nave the national anthem will be played, followed by the overture from HANDEL'S Occasional Oratorio upon the organ. The service will commence with a *Te Deum*, to be sung to the very effective setting of the Prince Consort, which happens to be scored for instruments which are to be used at the abbey. Then will come a special prayer which has been composed for the occasion by the primate, and this is to be followed by some of the responses from the Accession service. Then a psalm is to be chanted, probably the twentieth, after which the lesson is to be read by the dean, and the service will be closed by DR. BENNET'S new jubilee anthem, the blessing being given by the primate. As the Queen leaves the abbey the Priests' March in Mendelssohn's "Athalie" is to be played. The decision not to have a sermon is very wise, but it is a pity on all accounts that the original intention to close the service with either Handel's Coronation anthem, "Zadok the Priest," or the Hallelujah Chorus, has been departed from, and it would be wise to replace one of these and strike out the lesson. The service is to cost the country $100,000, and as nobody will see anything of it except the representative congregation invited by the lord chamberlain, it is manifestly desirable that the public should receive the compensation of the really splendid procession, and that the Queen should drive to the abbey by a route which will give some hundreds of thousands of her subjects the opportunity of seeing her pass. The state carriage, drawn by the eight cream-colored horses, with the full paraphernalia of royalty, ought to be considered essential; but I am sorry to hear that it is in contemplation for the Queen to go in one of her ordinary carriages, and the procession about which there is so much talk is to dwindle down to an affair of a dozen closed carriages.

THE Toronto *News* has no love for the Dominion Senate. To that body it pays its respects in the following fashion: No country possessing legislative institutions can show a parallel to this collection of dotards, parasites, and successful and discredited politicians. Supposing it possible for such a body to exist elsewhere, it would not be tolerated for a twelvemonth. That it continues to go through the form, or rather the farce, of passing upon legislation, year after year, is a reproach to the intelligence and common sense of Canadians, and a melancholy proof of the strength of mouldy traditions and the spirit of faction.

SCOTLAND AND HOME RULE.

An Edinburgh correspondent, writing to THE TIMES, draws attention to a fact which is worthy of note in connection with the great political controversy of the day—Home Rule. He states that the convention of the Royal burghs, at its late annual meeting, held in the northern capital early in April, negatived a motion in favor of establishing a separate Parliament and Executive for Scotland by a vote of 44 to 17. The vote derives special significance from the circumstance that the convention is a representative National Assembly, with a history dating from the close of the 15th century. It has, indeed, been suggested that if its powers were enlarged, it might become a local parliament, and be the means of applying Home Rule to Scotland. It is for that matter, and in a literal sense, a parliament already; for its chief, almost its sole function, is speaking. It is empowered to discuss questions connected with trade and the public welfare, and to pass resolutions on the same; the value of which consists in the fact that they are expressions of the aggregate public opinion of the chief towns in Scotland. The members are the Provosts of Royal and Parliamentary Burghs, and their assessors, many of the latter being lawyers and public men of Edinburgh. Parliamentary usage is so far followed that the members are never referred to by name, but always by their official designation, as the Provost of Jedburgh, the Provost of Paisley, the Commissioner for Rutherglen, the Assessor for Dingwall, and so forth. The decision of such a body on so important a subject as Home Rule for Scotland is significant, and was expressly based on the desire to avoid everything that might tend to endanger the integrity of the Empire and the Union with England.

THE Governor General has disallowed an act concerning the collection of freight and wharfage and wharehouse charges passed by the Nova Scotia Legislature.

THE numbers of patents granted last month was 223 as compared with 225 for the same period of last year. The revenue was $7,864 a big increase over the corresponding month of 1886.

DURING the first three months of this year 6000 immigrants landed at Halifax, over 500 more than came during the whole twelve months of last year. If the politicians will just keep quiet for a little while some of these people will stop in Canada.

IT is stated by the Government Superintendent that there are now on the grazing grounds of the Northwest 110,000 cattle, 25,000 sheep and 10,000 horses. These numbers, he declares, are seventy-five per cent. over those of the previous year.

ONE of the greatest ironclads of the British navy was launched on the 9th inst. from the Elswick works of Sir W. Armstrong, Mitchell & Co. The ship—a twin screw steel armor-plate turret ship, with a displacement of 10,470 tons, and engines of 12,000 horse power, was named the Victoria.

THE Dominion bank statement of last month shows that the circulation increased $2,000,000 over the same period last year; deposits $5,000,000, and discounts $7,000,000, while overdue paper was $715,183 less. These items are all indicative of business activity and a healthy state of commerce.

SHOULD the government grant the readjustment in the tariff on iron asked for by the deputation which visited Ottawa the other day, an enormous development of the industry in Canada is said would follow. The investment of many million dollars of capital would in all probability shortly follow.

THE Canadian manufacturers' association have resolved that they are opposed to any treaty between Canada and the United States which would admit American manufacturers free of duty, and will request the government to closely guard Canadian manufacturing interests in any negotiations which may take place between the countries.

ALL unbiased people must look with approval on the stand taken by Mr. Patterson, of Essex, in the House of Commons on the Queen's election case. The Queen's election case is simply an attempt on the part of a parliamentary majority to reject the candidate who received the larger number of votes at the polls and put in his place the candidate who received the smaller number.

THE government's proposal to practically abolish the department of Inland revenue, and to create a "comptroller" who will hold a subordinate position looks very like an attempt to gerrymander Mr. Costigan out of the cabinet. The premier does not deny that such is the object of the bill to readjust the Customs and Inland revenue departments.

DOMINION elections in Montreal are somewhat expensive affairs. The expenditure for the four candidates in the recent electoral contest in Montreal West and Centre amounted to $12,946.70. Of this amount Sir Donald A. Smith's expenditure was $6,418; J. K. Ward's, $2,309; Mr. Curran's, $2,014.55, and Mr. Curran's $1,214.15. The returning officers' bills amounted to $700 each, but the auditor-general reduced them by $60.

THE annual slaughter of brakemen in coupling cars goes on. The *Railroad Gazette* estimates the probable annual casualties in this way at 459 killed, 4,073 severely injured, and 13,770 slightly injured. Here is a total of 18,302 killed and wounded in the United States in a single year while coupling cars—a loss one-half greater than that sustained by the United States army at the great battle of the Wilderness.

Over a thousand bricklayers, carpenters, stonemasons, and upholsterers are out on strike in Toronto, Hamilton and London. Building operations are completely paralyzed.

A Canadian Inter-State Commerce Law.

From Ottawa wires the report that Mr. Mullock, M. P., has introduced a bill into the Commons embodying some of the provisions of the United States Inter-State Commerce bill. The most important provisions relate to discrimination in rates and provide that no railroad company shall charge for carrying freight a short distance a greater rate than for carrying the same class of goods a longer distance, in which the shorter is included; that is, that local freight from station to station along the lines shall not have to pay more in proportion on account of there being no competition than shall be charged for through freight between points served by more than one road and where there is competition. The bill further provides that unused passenger tickets may be redeemed at any station office of the company between and including points covered by the ticket, and also provides a penalty recoverable in case of a refusal by any railroad company to so redeem any ticket. It is claimed that the formalities connected with the redemption of unused tickets have been such that a great number of travelers could not spare the time or get an opportunity to carry out the process.

The "Soo" Bridge.

The contract for the erection of the superstructure of the new railroad bridge over the St. Mary's river at Sault Ste. Marie has been let to the Dominion Bridge Company, whose works are at Lachine, Quebec. The high price of iron and steel in the United States, compared with the low price in Canada of imported British material, enabled the Dominion Company to underbid all American builders on all work but the draw-bridge. The contract for this has been taken by the Detroit Bridge & Iron Works. The length of the draw or swing is 400 feet. It will be removed by steam and may be opened or shut in 1½ minutes. There will be ten spans of 239 feet each following. There is to be a filling of about 300 feet on the Canadian side, then two spans of 104 feet over a slough, and after that the solid ground. The piers will measure 8x24 feet under the coping, with necessary abutments. They will stand between 15 and 25 feet above the surface, and will be surely anchored to the bed of the river, which is 6 to 20 feet below the surface. The length of the bridge and approaches will be about three-quarters of a mile.

Black Teeth.

ST. CATHARINES, April 26.—A strange case has been made public by the visit of a well to do farmer and his daughter from the Riding of Monck to this city to consult a dentist regarding a peculiar and hitherto almost unknown affliction which has occurred to the teeth of the girl, who is about eighteen years of age. The young lady, who is apparently in every way healthy, is blessed with a finely developed and regular set of teeth, but they have become in both jaws a beautiful jet black, resembling the blackest polished marble. Up to a few years ago the teeth were perfectly white, and the change has been gradually coming until now they are as stated, although in the meantime numerous preparations to prevent discoloration has been tried.

Catarrah, Catarrhal Deafness and Hay Fever.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are cured in from one to three simple applications made at home. A pamphlet explaining this new treatment is sent free on receipt of stamp, by A. H. Dixon & Son, 305 King street West, Toronto, Canada.—*Christian Standard.*

NEW BINDERY

G. A. ROEDDE

ANNOUNCES THAT HE HAS STARTED A new Bindery and Blank Book Manufacturing establishment on the north side of Johnson street, between Broad and Douglas streets. He is a practical binder, having had a lengthened experience in the business in Europe and America, and flatters himself that he can give entire satisfaction as regards price and quality of work. For a number of years he occupied prominent positions in leading bisderies in the east and in San Francisco. Fancy ornamental artificial flower and other work done in short notice and in the highest style of art. A share of public patronage is respectfully solicited.

THE LOVER'S REASONING.

Tell why I love her? Tell me why,
Turning from murky town and pushing mass,
You love the woodland path, the placid sky,
I'll answer then.

Why do I love her? Analyze
Where in the violet perfume is,
Where in the music's strain the tears arise.
Can you do this?

Tell why I love her? Yes, when you
Reveal the secret which in snowdrops lie,
Or strain the beauty from the drops of dew,
Then I'll tell why.

Why do I love her? First make clear
Whence steals through minster aisles the restful spell
That fills with mystic sense the atmosphere.
I then will tell.

Yes, love, I turn to thee from glare and crowd,
Tender as dales in spring, as summer's cloud,
Soothing as gentlest song, soft as perfume,
Purer than beads of dew, or snowdrop's bloom.
I in thy presence rest, where tumults cease,
The minster gate is closed, within is peace.

—Temple Bar.

THE FLEETING COOK.

A Little Story Which Throws Considerable Light on a Certain Class of Women.

Here is a story on a certain class of mistresses—a class that is not numerous, but is peculiar to the ranks of the "vulgar rich" who are so scorchingly described by Ouida. A lady comes a stranger to Buffalo, her husband an army officer, ordered here on special duty. She at once breaks into housekeeping and deems herself fortunate in securing a really good cook. One morning while reflecting upon her luck in finding such a kitchen treasure—and she is a stranger in a strange place—she sees a fine establishment—splendid sleigh, fine horses, swell coachman—drive up to her door. From the sleigh steps out a very handsome specimen of womanhood, elegantly costumed. Our army woman, suspecting that she is to be made the recipient of a little Buffalo welcome and hospitality, steps to the mirror, gives her bangs a little twist and prinks up hastily. She hears the door bell ring; soon after hears voices in the parlor. But there is no summons for her, and in five minutes, more or less, the superbly dressed visitor aforesaid leaves the house and drives off. The second girl being asked for an explanation, replies that the lady asked to see the cook, and that functionary soon informs her army mistress that she has had an offer of much higher wages if she will leave at once, and that the offer is too tempting to refuse. Protest is ineffectual, and wondering whether that is the way of doing things in Buffalo, the disconsolate housekeeper submits to the result and goes out to hunt after another cook. A few days pass, and the sleigh, the coachman and same elegant specimen of the feminine gender again come up to the door, and this time the lady of the house is certainly asked for. With some reluctance and considerable smothered indignation she goes down, but is soon disabused of any notion that the "lady" is going to "make a call." She briefly explains her errand—admits that she is the woman who induced the cook to leave, and complains that she is in a "really awkward position" for a "splendid cook" who used to live with her wants to come back, and she, of course, feels under obligations to get the other cook a place, seeing that she urged her to leave. She, therefore, asks our army woman if she is willing to take back her original cook "as a personal favor." Beg pardon, reader. Did you say "Well, I swear!" That is just what we said when we heard the story, and it is true, every word of it.—*Buffalo Express.*

THE MAGAZINE GUN.

Its Tremendous Advantages Over the Single Loader Used by Our Army.

It is an indisputable fact that any good magazine gun will discharge the contents of its magazine in a shorter time than any single loader can throw an equal number of shots; but to say that from that fact a magazine gun wastes ammunition is absurd. One might just as well say because a sportsman can shoot two shots from a double-barrel shotgun in a shorter time than he can from a single-barrel gun that the double-barrel gun is wasteful of ammunition, whereas it is a well-established truth that it is economical of ammunition, and that a good shot can kill a great deal more game with a double-barrel than he can with a single one. He may consume more ammunition, but that's what he goes out for; and it is believed by those who have had most experience with magazine guns that they really consume, wear out and waste less ammunition than the single loader.

But whether this be so or not is immaterial, and it is certain that in the shock of close conflict in the open field, that line of soldiers will prevail which can throw the greatest number of shots in the first ten seconds, rather than in the first ten minutes; and all the world except ourselves has learned that the magazine, from which the gun is charged and discharged by machinery with remarkable rapidity, is indispensable for great emergencies.

Every first-class European power has adopted one form or another of magazine guns, of which we have about twenty different patterns, all of which are excellent and several of which have almost reached the limit of perfection.

It is quite within the range of possibility that we may get into a war with a European nation at any time, and it is dead certain that we shall be caught totally unprepared for it unless our Government adopts and purchases a supply of magazine guns.—*N. Y. Sun.*

Lear in Chancery.

At a period when Mossop, the great actor, was managing the theatre in Smock Alley, Dublin, business was bad and his actors were not paid their salaries. One night Mossop, playing Lear, was supported by the arms of an actor playing Kent, who whispered to him: "If you don't give me your honor, sir, that you'll pay me my arrearages this night before I go home I'll let you drop." Mossop, alarmed, brought the man not to talk to him now. "I will," said Kent. "I will; I'll let you drop." Mossop was obliged to give the promise and the actor thus got his money, the effect of a desperate though well timed hint.—Detroit Free Press.

Don't Let the Cranks Read It.

A Frenchman is bringing out a work entitled "The Art of Living a Hundred Years." Great care should be taken to keep it out of the hands of the weather cranks in this country.—Norristown Herald.

PAPIER MACHE.

Description of Its Manufacture, and Some of Its Numerous Uses.

The manufacture of papier mache (literally, "chewed paper") forms an important branch of the paper industry. Who does not remember those projectiles of our school days which we called "spit-balls," and which when thrown at a wall or ceiling adhered thereto with tenacity? What was most striking about these balls was their extraordinary hardness after they become thoroughly dry, this being the more marked in proportion as the chewing had been more perfect.

It was through observing such hardness that the idea occured to some one to employ paper pulp in the manufacture of various objects. Yet the substance employed in the industry is not a "mashed" paper in the absolute sense of the word, but is a paper converted into a soft cardboard by mechanical processes.

In the manufacture of papier mache, the raw material used is a bluish-gray, unsized, strong, fine-grained paper. The sheets may be compared (whiteness, which is of no account, being excepted) to Annonay lithographic paper. Cotton forms the basis of it.

These sheets are pasted together by means of a layer of dextrine or starch, applied with a steel spatula. When the desired thickness has been obtained, the mass is put into a hydraulic press that operates in a highly heated drying room. Under the immense pressure of this apparatus there forms a solid block, which is as hard as boxwood or ebony, and which is perfectly plane or has the form of the mold in which the raw material, so ductile when moist and so hard when dry, was compressed. It can be molded into any shape whatever, that of table legs, chair arms, rose-work, moldings, etc.

This sort of wood, without pores, sap, fibers and knots, is capable of being worked with the saw, the gouge, the rasp and the lathe. It can be polished, if need be, although this operation is reserved for the thick black varnish that is applied to it in several coats with an intervening stay of a night in a very hot, air-heated drying room. When it comes from the latter the varnish is very hard, and is free from blisters and cracks. It is possible that many of the objects that are offered to us as being finished with Japan or Chinese lacquer are merely impregnated and covered with a mixture of gum copal, bitumen, tar, resin and other hydrocarbons impregnated with lamp-black and color in certain proportions.

The baking is the important point. When this operation has been too greatly prolonged, the varnish scales off and cracks; and when it has not been carried to a sufficient extent, the surface remains sticky. It is not necessary, then, to exceed a certain temperature, always higher than one hundred degrees.

This molded and pressed paper can be easily turned in the lathe, and made into light and indestructible balls and beads, or be fashioned into ink-stands caskets and cylinders.

It is from this substance that are manufactured all those bracelets of large black beads studded with Scotch imitation diamonds, all those necklaces, pins, clasps and trinkets of all sorts that are taken for pitch coal or some precious wood. Again, those handsome bracelets composed of semi-lucid and opaline globules that seem to have been cut out of a stone formed of concentric layers, like certain precious stones, are merely of papier mache, cemented with white varnish and coated with the same. So, too, those beautiful nacreous, painted and gilded trays, round tables, and caskets that are known as Japanese work are merely papier mache. The Japanese know but one kind of gilding, while we have two—the dead and the brilliant. We have, likewise, a liquid nacre taken from the scales of the whitebait that well imitates the white currant and certain transparent berries. The nacre is solidly inlaid by means of the hydraulic press, and finally the surface is finished with pumice stone in order to make it perfectly even, and covered with a colorless varnish of the first quality.—*Bulletin des Fabricants de Papier.*

How He Resembled Booth.

A wealthy young amateur with a fond mother was fired with fine frenzy, and concluded to go on the stage as Hamlet.

"Don't you think," said his mother to a friend one night, after he had been on about a month, at a cost of $20,000, "my boy will be a very great tragedian some day?"

"Well, really, I can't say," was the cautious reply; "but in one particular he is very like Booth."

"Ah, thank you," said the fond mother. "In what particular, pray?"

"He always comes to the theater in a carriage, madam."—*Washington Critic.*

—Ten languages—English, German, Norwegian, Swedish, French, Bohemian, Finn, Polish, Italian and Chinese—are spoken in Minnesota. The Governor's message was printed in each of these languages.

—Tea Cakes: One cup of butter, two of sugar beaten together, one cup of sour milk or water, a teaspoonful of saleratus, spice, nutmeg or carraway; flour to roll out. Mix as soft as possible.—*Good Cheer.*

Gainsborough's Famous Quarrel.

The recent controversy over the management of the Royal academy has recalled Gainsborough's famous quarrel with that body. It was in 1784. He sent in a life size group of some royal personages with a request that it be hung—contrary to rule—below the line set for life size portraits, namely, seven feet from the floor. "If you refuse me this indulgence," he wrote, "I will never exhibit with you again; and that I swear by God!" The request and the violent language together shocked the academy terribly, and it returned the picture to the artist. He kept his word, and up to the time of his death, four years later, never sent another picture to the academy. But when he lay on his death bed he sent for Sir Joshua Reynolds and became reconciled to him, addressing to him his last words: "We are all going to heaven, and Vandyck is of the company."—Chicago Herald.

TO ADVERTISERS.

The circulation of THE TIMES is greater in this province than that of any other journal. It is an unrivalled medium through which the people can be reached. Try it and be convinced of its superiority over all others.

CITY AND PROVINCE.

—The Provincial goal at present contains 43 prisoners.

Thirty Days more for bargains at Denny's Clearing-Out Sale.

—Something good for breakfast. Prime Finnan Haddocks, fresh, at FELL & Co's.*

—The Ancon will sail for the north on Wednesday morning.

—The Royal Hospital at present contains 46 patients.

—Money saved by having your plans made by FISHER, the ARCHITECT *

—M. W. WAITT & Co., have now in stock the famous ESTEY ORGAN, for which they are agents. Call and examine. *

—The Royal City placing mills' employees have subscribed $160 for the relief of the Nanaimo sufferers.

—For a delicious MILK PUNCH or a genuine COCKTAIL go to the Pritchard House. *

—The employees of Hastings Saw Mill Co., in the space of an hour raised $250 in aid of the Nanaimo sufferers.

—Photographic views along the line of the C. P. R. in B. C., for sale at R. MAYNARD'S, Douglas St. *

—The Maple Leaf social club will wind up the season with a calico ball on Wednesday night next in Denny's Hall.

—The sum of $1,373 and a watch were found on the body of Murne, murdered at New Westminster.

—The funeral of the late Mrs. Constantine will take on Wednesday at 2:30 p. m.

—A brother of the New Westminster Police Magistrate, T. C. Atkinson, died on Monday last at the old homestead at Orangeville, Ontario.

—A well selected stock of ENGLISH WALKING STICKS, LAWN TENNIS goods and Spalding BASE BALL GOODS, at J. BARNSLEY'S, Fort street, near Douglas. *

—Business on the Victoria-Vancouver route is now on the increase, the average number of passengers traveling each way daily being forty.

—A house and lot, situated in one of the best parts of the city, for sale; lovely view, good drainage and water. Address X, TIMES office. *

—A wedding license was issued to-day, the contracting parties being well known here. The happy event will be consummated to-morrow evening.

—The Princess Louise and Geo. W. Elder had a test of speed last week on Barrard Inlet, and the former was found to be slightly the speedier.

—The train to Nanaimo yesterday carried close upon 200 passengers, the majority from this city. Every available seat was occupied.

—The Remington type writer is far superior to any other, being the simplest strongest, most durable and most rapid writing machine made. M. W. Waitt & Co., are sole agents for B. C. *

—KNIGHTS OF LABOR—Special meeting Tuesday evening, May 10th, at Harmony Hall. All the members are requested to attend; business important. E. HALLETT, Rec. Secretary. *

—Another shipment of Novelties in Jerseys, Children's Dresses, Hosiery, Dress Goods, &c., &c., received this day at the Lansdowne House, Yates street. John Partridge, proprietor. *

—Work on the Law Courts, Bastion square, is progressing favorably. An extra force of laborers was put on this afternoon and the work will be vigorously pushed forward.

—Call and see our fine mouldings, all latest patterns, steel engravings and latest pictures. We make a specialty of mounting pictures, Jos. SOMMERS, Government St. *

—Dr. A. C. West, dentist, will for the present occupy dental rooms in Hastings Photographic buildings, Fort street, where his old patrons and all requiring fine dental work, are respectfully invited to call. *

—Mr. W. Murphy announces in another column that he has opened a tailoring establishment in the C. P. R. Telegraph block, Government street. With a large and well selected stock Mr. Murphy solicits a share of public patronage.

Hall & Quackenbush, Vancouver, B.C., have the most complete list of business and suburban properties for sale at the terminus of the Canadian Pacific Railway. Price and terms to suit all parties. Inquiries by mail promptly answered. References. *

—Real estate in Vancouver at present is very active and large sales are taking place daily. Mr. Gideon Robertson effected a heavy sale last week in the subdivision of 185—the Brighouse property. Also, sales in 204 at figures in advance of those asked a few weeks since.

Obituary.

Information has been received by Mr. Frank, of this city, of the death of his brother, S. H. Frank, the senior member of the firm of S. H. Frank & Co., tanners and dealers in leather and hides, San Francisco. The deceased was only 32 years of age, and was carried off suddenly with pneumonia.

Mrs. Harriet Constantine, wife of Wm. Constantine, the well known carpenter and builder, and an old resident of this city, died on Saturday night, aged about 32 years.

A strike of all the anthracite coal miners in Pennsylvania is imminent for more wages if the demand is refused.

The Morrison Company.

The Morrison Company which created such a favorable impression in Portland last week are to make their appearance at the Victoria in this city beginning with next Monday night. The San Francisco press as well as that of Portland, Denver and elsewhere speak in the highest terms of praise of the performances by this company. The Portland *News* in speaking of the production of Goethe's great work, Faust, in that city says: The whole play as presented was a noble effort to photograph the supernatural as contrasted with the human. The stage effects displayed great ingenuity in execution as well as intelligence in conception. The scenery was far more ambitious and more thoroughly artistic than we had any right to expect. Every detail seems to have had attention resulting in a combination of the spectacular, that discounts anything we have had. While the scene, The Brocken on Walpurgis Night, created the wildest enthusiasm, there was not one that was not of a superior order. The Garden scene was a triumph of stage art, but everything paled in comparison with the Brocken scene, representing the interior of pandemonium with all the attendant goodies. The Plaza of Nuremberg, the Fountain, and shrine of the Virgin, and the Prison scene, were really magnificent. At the close of the Brocken scene the audience applauded continuously and were not satisfied until the curtain had been raised five times. Of the whole production we have nothing but words of praise. It should run the entire week, and before crowded houses. In dramatic, scenic and spectacular qualities it surpasses expectation.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottle 10c. Try it. *

A Valuable Cargo.

The American bark Enos Soule, which sailed from Hongkong for this port on the 27th March, has a large and valuable cargo, composed of the following: 18,210 bags rice, 1,003 packages tea, 101 boxes firecrackers, 17 rice flour, 62 cases China ware, 2,731 boxes China wine, 151 cases opium, (valued at over $100,000) 690 cases oil, 216 bags beans, 24 bags peas, 50 cases joss sticks, 346 packages soy, 29 rolls matting, 8 bundles rattan, 38 boxes sugar, 52 bags sugar, 64 packages tobacco, and 2,005 assorted merchandise. This cargo is worth probably $200,000, the opium on board being alone valued at half of that sum. The Soule is now about due.

The Eliza Anderson.

Mr. Robert Kerr, general traffic superintendent of the C. P. R., and Mr. D. E. Brown, district freight and passenger agent, were up Puget Sound last week, and from a reliable source we learn that while there they made arrangements with the Washington Transportation Co. by which the steamer Eliza Anderson is to be employed in the service of the C. P. R. between Vancouver and Tacoma. The steamer will undergo a thorough overhauling and is expected to make her initial trip under C. P. R. management about the latter part of the present month.

For San Francisco.

The steamship Geo. W. Elder left the outer wharf at 1 o'clock yesterday afternoon for San Francisco carrying a large number of passengers from this port, amongst whom were several prominent Victorians, and members of the Y. M. C. A. who go to the Bay City to attend the general convention of the Y. M. C. A. which assembles about the 20th inst. The wharf and steamer presented an animated appearance with a large assemblage of both sexes in Sunday attire to see the good ship sail and bid a warm *au revoir* to their friends.

Italian Skies Again.

Yesterday was, comparatively speaking, a lovely day and thoroughly enjoyed after a long stretch of unpleasant weather. Beacon Hill was dotted with people; a large number went to Nanaimo; the dry dock and Esquimalt was visited by many, while everywhere people were to be seen promenading or buggy-riding. To-day's weather is equally as pleasant as yesterday's, and we are inclined to believe that our long lost "Italian skies" have come back again to stay for a time.

The Chester's Passengers.

The following are on the City of Chester for this port: Robt Croft and wife, M Robinson, F Ray, F French, H Prewald, M Smith, M Hall, P N Cummings, E Struven, M Jones, J Fitzgerald, G E Bertaux, Mrs D. McRae and child, J G Plunket.

J B Botterell and wife, F S Dupree, E Napier and wife, S K Trigg, J A Maddock, T Harper, Mrs K Penie, Miss Cartmell, F H Lewis, J B Malher.

We Take It.

We take the coin, the customers take the bargains, and the bargains take the cake; everybody says so when they see our $5 Serge Suits. A. GILMORE, JOHNSON STREET. *

Dalby's Stables.

The prices offered at the sale at Dalby's Eureka stables to-day were not satisfactory, and all the horses and carriages were bought in. Parties requiring carriages for hire can be accommodated as usual. *

English Window Glass, 16 oz., all sizes; also Stained and Enamelled Glass, at Muirhead and Mann's Sash and Door Factory.

Two hundred and fifty indictments have been found against the Missouri Bald Knobbers by the grand jury at Ozark.

THE MURNE MURDER.

The Awful Tragedy at New Westminster.

Wm. Shearer, who murdered James E. Murne on Friday morning at New Westminster, was an employee of Contractor Hamilton, for whom he was helping to unload a scow load of lumber at the time of the murder. Charles A. Carroll, who was working with Shearer, gives the following account of the tragedy:

"I was unloading a scow of lumber at the C. P. R. wharf this morning. Wm. Shearer, the accused, was working with me. I noticed a strange man leaning against one of the piles on the wharf about thirty feet from me. I saw Shearer leave the scow and go up the slip on to the wharf. I turned to my work, and shortly afterward I heard someone cry, 'He's killing me.' I turned and saw the stranger, pursued by Shearer, running across the wharf. I saw Shearer striking at the man, and saw the victim fall. I rushed on to the wharf and saw Shearer throw away a knife in the river and walk towards Contractor Hamilton and give himself up. I went over to the wounded man and he asked me to go for a doctor, which I did."

James E. Murne lived in Semiahmoo and had come to New Westminster two days before the murder. He is about 45 years of age and well known in the province. He owns a logging camp near Point Roberts and keeps a general store at Semiahmoo. The prisoner also lives in Semiahmoo, having a wife and family there. He is a man, apparently not over 30 years of age, and is about 6 feet tall. He is reported to be very hard of hearing. At the time he gave himself up, being asked why he committed the deed, the prisoner answered, "he was the plague of my life." There is a rumor afloat that the murdered man had caused much misery in the prisoner's family, and ruined him financially.

Victoria K. of L.

A petition was presented in the Commons from Onward Assembly, No. 3107, Knights of Labor, Victoria, B. C., severally praying for the passing of an act providing that any terms or stipulations, other than the rendering of an equivalent for wages, insisted upon or demanded by employers in the engagement of employees, should be declared null and void, and that any attempt at their exaction should be declared a criminal offence punishable by imprisonment for a specific period, on proof and conviction in any court of competent jurisdiction, and from the same Assembly, praying for the passage of an Employers' Liability Act.

Also from Mr. John Hendry and others of New Westminster, by Mr. Donald Chisholm, praying for the passing of an act empowering them to construct a railway between Semiahmoo Bay and Township 16, in the District of New Westminster, to some point on the south bank of the Fraser river.

Militia General Orders.

The *Canada Gazette* of the 30th April contains the following militia general orders:

B. C. Brigade of Garrison Artillery, No. 4 Battery, Victoria.—2nd Lieutenant Louis Garcia Dumbleton is hereby removed from the list of officers of the active for non-attendance at drill.

New Westminster Rifle Company.—To be captain, provisionally: Edwin Sayre Scoullar, vice Adolphus Peel who is hereby permitted to retire retaining rank as a special case. To be lieutenant, provisionally: Lawrence Leander Doane, vice Bonson, retired.

From the West Coast.

The steamer Woodside came in from the west coast yesterday afternoon. A rich gold find is reported from Bear river and about $15,000 in yellow dust came up in charge of the captain. The mines are worked exclusively by Chinese, who are keeping the thing quiet. A gang of fifty Chinese will leave this week to swell the already large number at present there. A number of years ago there was a small mining excitement at Bear river, but the pay never seemed to warrant white men working it permanently. We are led to believe that the diggings are rich.

Dangerously Ill.

Mr. L. Samuels, a Toronto merchant, and a member of the hardware firm of M. & L. Samuels & Co., of that city, is lying dangerously ill at the Clarence. Mr. Samuels came up from San Francisco last week, on his way back to Toronto. He is an elderly gentleman, and apparently is suffering from a complication of diseases. His recovery is extremely doubtful, and the medical gentlemen in attendance have telegraphed to his friends in Toronto to that effect.

Mirth and Music.

The Concordia this week offers a new programme. This evening John Mulligan, the great Irish comedian appears; also Miss Carrie Linton, serio-comic queen, Miss Bessie Turner, song and dance lady is unequalled. Mr. Larry O'Neil, the Irish gentleman; W. E. Turner, motto singer, and Frankie Whitcombe comprise the balance of an excellent vaudeville company. *

Life in a Coal Mine.

Mr. R. Finlay Heron, B. A., Mining Engineer, will lecture to-morrow evening at the Theatre Comique on "Life in a Coal Mine." The lecture will be illustrated by a powerful oxy-hydrogen lantern with a number of views showing the dangers of mining. The lecture will doubtless prove to be highly interesting.

The Place for Bargains.

J. Sehl has just opened, in addition to his well assorted stock of Furniture, Carpets, Oil Cloth and Linoleum, a complete line of Crockery, Glassware, Lamps and Bar Glasses, the finest ever offered in the country, at remarkable low prices, having arrived before the advance in freight rates. *

Potatoes Exported.

Mr. J. Engelhardt, commission agent, shipped per Geo. W. Elder, sailing yesterday, 40,000 pounds of potatoes consigned to Ross & Hewlett, of San Francisco. The potatoes were grown in the province, some at Ladner's Landing and some in the vicinity of this city.

Suspended Publication.

The *Evening Post* suspended publication on Saturday evening. The editor is hopeful that he will be able to resume publication again in a short time. It must be obvious to every one that the field has been more than supplied in the past.

An Italian Killed.

On Saturday one of the Italians employed on construction at Port Moody was thrown off a car, and falling between the cars was horribly mangled. Death was instantaneous. The accident was caused by a boulder rolling on the track.

Arrival of the Chester.

The City of Chester arrived at 12:30 today after a pleasant passage of 75 hours. She brought 28 first-class passengers and 215 tons of freight for this port.

You Should See Them.

Two CARIOLES buggies direct from the manufacturers, special prices, new styles. COWAN, SHAW & Co., Wharf St. *

A Fine Lot.

BUGGIES, PHAETONS, &c., just to hand, two carloads, extra finish. COWAN, SHAW & Co., Wharf street. *

SHERIFF'S SALE.

MURPHY V MCDOWELL.

In obedience to a writ of Fieri Facias issued out of the Supreme Court of British Columbia and to be directed, dated the 30th day of March, 1887 commanding me that of the goods and chattels W. J. McDowell, of Victoria, I cause to be made the sum of $758.30 and $250 for costs of execution and interest on the said sum at 8 per centum per annum from the 30th day of March, 1887, besides Sheriff's poundage and all other legal incidental expenses, I have seized a lot of Tins, Chases, Cases, Innocuous Stoves, and other materials used in the publication of the DAILY EVENING POST newspaper, contained in the premises situate on the corner of Broad and Yates streets, known as the Moody Block, and will sell the same at Public Auction to the highest bidder, on Monday the 30th day of May, instant, at 11 o'clock in the forenoon unless the said sum of $758.30 and costs be sooner paid. Terms cash.

J. E. MCMILLAN, Sheriff.

VALUABLE

RealEstateSale

Barkerville, Quesnelle, Yale, New Westminster and Victoria City.

In the Supreme Court of British Columbia.

JOSEPH GOETZ vs. LOO CHOCK FAN, and LOO CHEW FAN, Trading as Kwong Lee & Co.

NOTICE IS HEREBY GIVEN THAT IN PURSUANCE of an order of the Supreme Court of British Columbia, made herein, and dated the 1st day of December, A. D. 1886, with the approbation of the Honorable Sir Matthew Baillie Begbie, Knight, Chief Justice of the Supreme Court of British Columbia, there will be sold by Public Auction at my Salesrooms, Fort and Langley streets, Victoria,

On Wednesday, the 18th of May,

A. D. 1887, at 11 o'clock in the forenoon, in 34 Lots, all the right, title, equity of redemption, and all other the interests of the defendants or either of them in the following freehold and leasehold property:—

FREEHOLD.

BARKERVILLE.

1. Lot 20, Block I.

QUESNELLEMOUTH.

2. Western portion of Lot 14, Block II—66 feet width by depth of 22 feet—on which is erected a substantial Storehouse.
3. Lot 18, Block II.
4. Lot 1, Block III.
5. (1) One twelfth part of the Bradley Nicholson Mining Co's claim.
(2) One sixth part of the Bradly-Nicholson Mining Co's claim.
(3) One eleventh part of the Bradley-Nicholson Mining Co's claim.
6. Beaver Lake Ranch, consisting of 320 acres in Alexandria District.

YALE.

7. Part of Lot 5, Block II, on which is a portion of a house.
8. Lots 7 and 8, Block II, on which are erected the old Kwong Lee & Co's Store House and a fine Stone Cellar.
9. Lot 9, Block II.
10. Lot 7, Block IV, on which are erected four small tenements.

NEW WESTMINSTER.

11. Lot 4, Block 34, Agnes Street.
12. Lot 11, Block 24, Prevost Street.
13. Lot 4, Block 17, Carnarvon Street.
14. Lot 18, Block 13, Clarkson Street.

VICTORIA CITY.

15. Lots 586, 587, 588 and West half of 589, on Cormorant Street, and 594, 595, 596 on Fisguard Street on which there is a mortgage to Roderick Finlayson for $6,000, payable 6th June, 1884, with interest at 2 per cent per month. Receipt for $2,000, dated 6th June, 1886, endorsed thereon. Also mortgage to Roderick Finlayson to secure payment of $14,250 on 15th November, 1886, with interest at 1½ per cent per month. Also lots 587 and 588 subject to the last mentioned mortgage for $14,250.
16. Westerly ½ of Lot 444, on south side of Fisguard Street, recorded memorandum by Loo Chock Fan, representing Kwong Lee & Co., purporting to convey (enter alia) said (part of said) Lot to Roderick Finlayson as security for payment of a promissory note for $2,000 and interest.
17. Lot 445 on South side of Fisguard street.

On Lots 16 and 17 there are two wooden buildings that return a rental of $35 per month.

18. Lot 532 on south side of Cormorant street, on which is erected a large brick building, occupied by the firm of Kwong Lee & Co., and on the west side of this Lot there is a substantial brick wall erected suitable for a side wall for any building that may hereafter be erected thereon, and in which the firm of Kwong Lee & Co. have a half interest.

Mortgage to Lauritz Karney for $1,500, payable 2nd August, 1887, with interest at 10 per ct. per annum. Particulars as to the payment of this mortgage will be furnished on application.

19. Lot 438 and Westerly ½ of 439, on which there is a mortgage in favor of Rt. Rev. George Mills, P. O'Reilly and Wm. T. Ward, to secure payment of $3,500 on 5th June, 1883, with interest at 8 per ct. per annum. And a further charge to secure payment of $2,000. This property is covered with first class two story brick buildings, divided into four stores below, with rooms, &c., and returns rentals of $214 per month.

Lot 15 and the leasehold property next hereinafter mentioned have buildings consisting of several stores, numerous tenements and a theatre upon them, and have returned an average rental of $6,920 per annum for the past nineteen months.

Leasehold Property Situated in Victoria City.

20. Lots 594, 595, corner of Government and Cormorant streets, with brick buildings occupied by Row Yuen & Co., and others, on a favorable lease.

Lots 600, 601, unimproved, corner of Government and Fisguard streets.

These four Lots are leased for a term of thirty years from Mr. Olver.

21. Lot 599 on Fisguard street, with building thereon, is leased property from the estate of J. F. Davies.

Particulars and conditions of sale may be had of the Auctioneer, or of Eberts & Taylor, Langley street, Victoria, Solicitors; or of James Charles Prevost, the Receiver appointed herein.
